Simplify record
keeping & improve
operational efficiency

Eliminate paper files and benefits from electronic health records management

To reduce costs and streamline operations, healthcare organizations must continually innovate and find better approaches to overcome challenges associated with paper documents.

With Open Bee™ digital solutions, you can capture and manage electronic healthcare records to free up space in your office, improve information access but also help your whole practice run more efficiently.

Primary Use Case	Ideal Applications
Manage and Store Medical Records	<ul style="list-style-type: none">> Scan/capture every document and patient record and eliminate storing the paper copy> Quickly & securely retrieve files> Access patient files anywhere, anytime from PC or mobiles devices> Keep an audit trail of who viewed, modified, approved and changed information

Other Use Case	Ideal Applications	Other Use Case	Ideal Applications
Electronic Form/Workflow	<ul style="list-style-type: none">> Build custom applications to streamline your processes with customized e-forms and automated workflows> Admission and registration forms> Patient and referral forms> Internal document requests> ...	Web branded portal / Extranet	<ul style="list-style-type: none">> Create external access for staff and patients or vendors> Send large files & secure communication
