

Hospitality
Hotel, Restaurant,
Spa

Improve customers
satisfaction &
operational efficiency

Hospitality | Hotel, Restaurant, Spa

Make your field team more efficient

To increase customer satisfaction and operational efficiency, hospitality businesses must continually innovate and find better approaches to overcome challenges associated with document sharing and management.

Open Bee™ digital solutions help hotels, restaurants streamline their critical business operations by eliminating process bottlenecks created by paper.

Primary Use Case	Ideal Applications
Electronic Form	<ul style="list-style-type: none"> > Run satisfaction survey and assess how customers perceive the quality of your services (restaurant, check-in, spa, ...). > Enable House Keeping staff to perform more room inspections, in less time and to fix occurring problems before guests arrive. > Perform health and hygiene checks and communicate them instantly to external auditors right from your mobile device.

Other Use Case	Ideal Applications
Accounts Payable Automation	<ul style="list-style-type: none"> > Make sure that all vendor invoices are efficiently approved, processed and can be easily retrieved when needed.

Other Use Case	Ideal Applications
Secured Documents Sharing	<ul style="list-style-type: none"> > Speed-up and secure documents sharing of corporate event planning (contracts, agenda, booking forms, menus...). > Increase collaboration between your sales reps and the other departments (F&B, Rooms Mgt...) as well as external vendors.
